

TANKNOLOGY

TAKING YOUR TANKS TO THE NEXT LEVEL

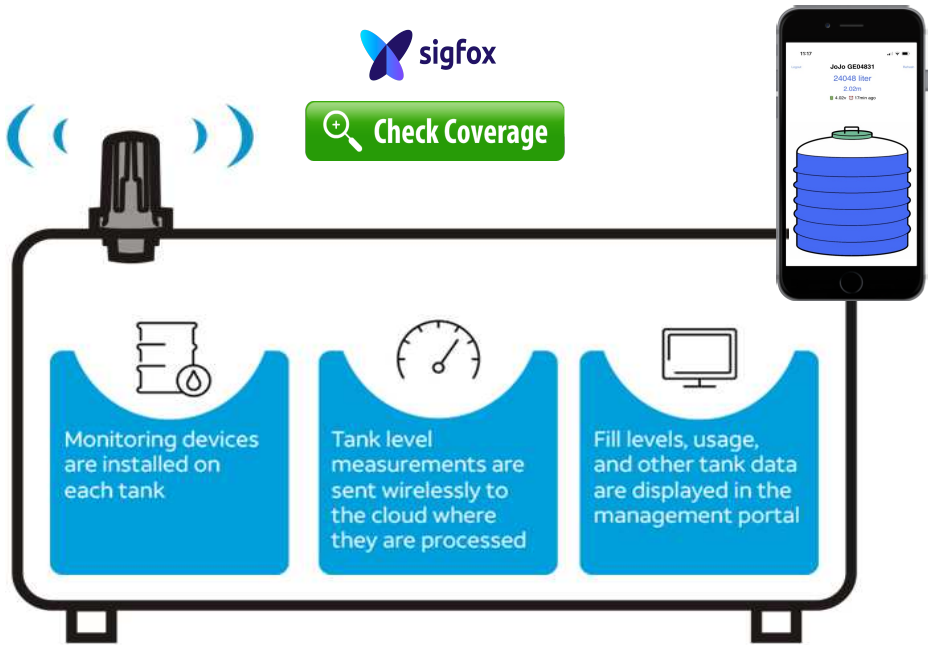

REMOTE TANK MONITORING AND ALERTING
SYSTEM FOR BUSINESS & INDUSTRY

www.infinity-iot.co.za

SEE WHAT'S HAPPENING IN EVERY TANK ACROSS YOUR ENTIRE BUSINESS.

TANKNOLOGY IS AN INNOVATIVE WIRELESS CLOUD BASED TANK LEVEL MONITORING AND ALERTING SYSTEM WHICH HAS BEEN DEVELOPED FOR THE MEASUREMENT OF DIESEL, OIL, WATER, KEROSENE, ADBLUE, LUBRICANTS, CHEMICALS AND AGRI FERTILISER TANKS

HOW IT WORKS

The TANKNOLOGY Sigfox enabled sensor uses ultrasonic pulses to measure the levels across your tank population. The sensors sends this information to our secure data centre.

This data then flows into your personal online dashboard, which shows your business's current tank levels in a simple format.

You can view your dashboard using any computer, tablet or smartphone. It's easy to check-in, and you can do it from anywhere in the world, at any time of the day or night.

You'll receive regular updates about tank levels and usage across your business, we can update you daily or weekly and in a range of formats – from e-mails to text alerts. The choice is yours.

IT'S AS EASY AS 1.2.3

Log in to your online dashboard and see all the data you need - statistics, statuses, measurements from every tank across your business

EASY TO
INSTALL

INBUILT LOW
LEVEL ALERTS

SUITABLE FOR
TANKS UP TO 5M

TANK TYPES

- > Plastic
- > Steel
- > GRP
- > Sectional
- > 5M in height

LIQUIDS

- > Water
- > Diesel
- > Lubricants
- > Kerosene
- > Adblue
- > Fertiliser
- > Additives
- > Adblue
- > Waste Oil
